👤 ABOUT

A web developer specialising in modern frontend technologies such as ES6+ JavaScript, Vue, Webpack, React, and SASS. Originally from the UK and currently living in Finland. Feel free to checkout my GitHub at the link above, and/or send me an email at jscott313[at]gmail[dot]com.

💼 WORK EXPERIENCE

Frontend Web Developer (Internship), Wunder
March 2018 - Present

Worked in an agile team to develop frontend experiences.

HIGHLIGHTS

- Improved accessibility and theming of the UK Food Standards Agency's new website
- Tools used include Git, ES6+ JavaScript, Webpack, Twig, and PostCSS
- Quickly adapted into a new codebase and environment

Web Developer, Freelance
March 2017 - Present

I have built (or helped build) several websites for business clients. Examples and links are available upon request.

- a Vue/Webpack/Sass website for a local construction supplies company, using VueX for state management with Prismic.io
- a jQuery/PHP/MySQL site for a Finnish food manufacturer
- a Wordpress site for UK property entrepreneurs
- various projects for fun and learning purposes viewable on my GitHub

English Teacher, Oasis Academy, London
September 2013 - August 2015

I was the main teacher of five classes of children aged 11-16. Through a Leadership Development Programme with the UK charity Teach First, I taught full-time whilst studying for a PGCE (the required teaching qualification in the UK) and, later, a Masters degree.

HIGHLIGHTS

- This role required outstanding planning, time management and interpersonal skills, as well as continuous self-evaluation and improvement.

Activities & Training Manager, TUI UK/Nordic
July 2010 - May 2013

Held responsibility for the programme, session delivery, safety, training, and welfare of a team of ~25 people delivering childrens' club and outdoor activities in a hotel in Tunisia (January-November 2012) and Lanzarote (November 2012-May 2013). Previously an Activity Instructor at the same company.

⛹ VOLUNTEER WORK

Care Assistant, Multiple Sclerosis Society
January 2009 - May 2011

Throughout studying my first degree, I volunteered at a local Multiple Sclerosis respite centre. My role was primarily to assist the residents on excursions (pushing wheelchairs and other general assistance).

☰ SKILLS

Web Development

ES6+ Javascript | Vue | Node | React | Webpack | Babel | SASS

Computing

Git | Mac | Linux | Windows | VS Code | Bash | Python | C
